# Cordpro®

REELS THAT MAKE SENSE
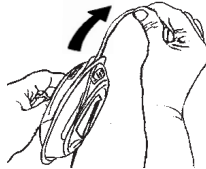

Installation and Use Instructions

1. At Cordpro tab, flex open sidewall and insert cord end on top of divider and push through handle opening.

2. Flex open opposite sidewall at Cordpro tab and pull cord end over the divider and out other side. Cord will then be passing through the divider.

3. Pull cord halfway through unit. (Example: For 10 ft. cord, pull 5 ft. through.) Cordpro will then be in middle of cord.

To Store Cord - Grip Cordpro by handle and wrap both cord ends in ***SAME*** direction. Each half will fall into its own compartment. Cord ends can now be unreeled separately or both at the same time.

AVOID OVERHEATING
All power cords generate heat when used.
Know cord and appliance ratings before use.

1000 Watt limit when used coiled
NO LIMIT if used uncoiled
